

## Annex 1.0 ENPE Members including Supporting Members and Observers

Please find below a table containing the current Members of ENPE (The European Network of Prosecutors for the Environment) which we record in order to share with new Members, and retain as an up-to-date circulation list for our newsletters and flyers. We would urge you to register for a user account for the ENPE website to ensure you can access the crimes database, including uploading details where appropriate: <https://www.environmentalprosecutors.eu/>

## **Annex 2.0 Recent ENPE activities, forthcoming activities and publications**

### ENPE Annual conference

Our 2019 annual conference will be held jointly with EUROJUST in The Hague, Netherlands at the EUROJUST Headquarters from the 28 and 30 October 2019. All ENPE members are invited to attend and some travel and subsistence assistance may be available. We will also be holding our general meeting (AGM) on the 29 October at the same venue. Please keep in touch with us for updates.

### LIFE-ENPE Working Group activities

ENPE is running a 5 year LIFE-funded project to help meet our aim. The LIFE-ENPE project (LIFE GIE/UK/000043), under Action B2, requires that four Working Groups are convened to improve the prosecution of Environmental Crime in the following areas: Wildlife (WG1); Waste (WG2); Air Pollution (WG3) and Sanctioning, Prosecution & Judicial Practice (WG4). All groups are preparing their Second Stage Interim reports, including training plans and materials where available, for sharing by the end of April 2019.

Working Group 1 (Wildlife Crimes), chaired by ENPE Secretary Lars Magnusson, organised and hosted a training workshop together with the UNEP Convention on Migratory Species in Segovia, Spain from 09-11 May 2018. Working Group 2 (Waste Crimes), chaired by ENPE Director Rob de Rijck, recently completed some animated training on the EU Waste Shipment Regulations and together with Working Group 3 (Air Pollution), hosted a joint training workshop in Cyprus in March 2019. Working Group 4 (Sanctioning, Prosecution and Judicial Practice), chaired by Carole Billiet has released a Guidance document to assist in the harmonisation of applying sanctions to environmental crimes and will provide more details on outputs in the Second State interim report. For more information, including meeting papers and presentations, please contact Shaun Robinson at [shaun.robinson@environment-agency.gov.uk](mailto:shaun.robinson@environment-agency.gov.uk).

### ENPE newsletter

The ninth edition of the ENPE newsletter will be issued at the end of April 2019. Like our previous issues, it will contain an introduction from our President, together with articles and cases of interest around environmental crime prosecution. For previous issues see <http://www.environmentalprosecutors.eu>

### ENPE Life Capitalisation & Gap-filling report

The LIFE-ENPE project (LIFE GIE/UK/000043), under Action A1, requires that a baseline report, describing the state of environmental crime prosecution and sentencing across Europe, is produced to 'set the scene' and identify gaps in information to guide the activities of the project. This report is now complete and has been shared with all ENPE Members and stakeholders. Please do let us know if you have not received a copy and we will re-send.

### Next ENPE Board meeting, Scotland House, Brussels, Belgium

The next ENPE Board meeting is likely to be in June 2019 at our registered office, Scotland House, Schuman, Brussels, Belgium and there is a standing invitation for all ENPE Members and Observers to attend Board meetings (NB unfortunately travel and subsistence payments are not available for these meetings).
